The Postmodernism Debate In Latin America

The Postmodernism Debate in Latin America John Beverley, Michael Aronson, José Oviedo, 1995-05-05 Postmodernism may seem a particularly inappropriate term when used in conjunction with a region that is usually thought of as having only recently and then unevenly acceded to modernity. Yet in the last several years the concept has risen to the top of the agenda of cultural and political debate in Latin America. This collection explores the Latin American engagement with postmodernism less to present a regional variant of the concept than to situate it in a transnational framework. Recognizing that postmodernism in Latin America can only inaccurately be thought of as having traveled from an advanced capitalist center to arrive at a still dependent neocolonial periphery, the contributors share the assumption that postmodernism is itself about the dynamics of interaction between local and metropolitan cultures in a global system in which the center-periphery model has begun to break down. These essays examine the ways in which postmodernism not only designates the effects of this transnationalism in Latin America but also registers the cultural and political impact on an increasingly simultaneous global culture of a Latin America struggling with its own set of postcolonial contingencies: particularly the crisis of its political left, the dominance of neoliberal economic models, and the new challenges and possibilities opened by democratization. With new essays on the dynamics of Brazilian culture, the relationship between postmodernism and Latin American feminism, postmodernism and imperialism, and the implications of postmodernist theory for social policy, as well as the text of the Declaration from the Lacandon Jungle of the Zapatista National Liberation Army, this expanded edition of *Boundary 2* will interest not only Latin Americanists but scholars in all disciplines concerned with theories of the postmodern. Contributors: Xavier Albó, José Joaquín Brunner, Fernando Calderón, Enrique Dussel, Nestor García Canclini, Martín Hopenhayn, Neil Larsen, the Latin American Subaltern Studies Group, Norbert Lechner, María Milagros López Raquel Olea, Anibal Quijano, Nelly Richard, Carlos Rincón, Silvano Santiago, Beatriz Sarlo, Roberto Schwarz, and Hernán Vidal.

Postmodernity in Latin America Santiago Colás, 1994-11-07 Postmodernity in Latin America contests the prevailing understanding of the relationship between postmodernity and Latin America by focusing on recent developments in Latin American and particularly Argentine political and literary culture While European and North American theorists of postmodernity generally view Latin American fiction without regard for its political and cultural context Latin Americanists often either uncritically apply the concept of postmodernity to Latin American literature and society or reject it in an equally uncritical fashion The result has been both a limited understanding of the literature and an impoverished notion of postmodernity Santiago Colás challenges both of these approaches and corrects their consequent distortions by locating Argentine postmodernity in the cultural dynamics of resistance as it operates within and against local expressions of late capitalism Focusing on literature Colás uses Julio Cortázar's *Hopscotch* to characterize modernity for Latin America as a whole Manuel Puig's *Kiss of the Spider Woman* to identify the transition to a more localized postmodernity and Ricardo Piglia's *Artificial Respiration* to exemplify the cultural coordinates of postmodernity in Argentina Informed by the cycle of political transformation beginning with the Cuban Revolution including its effects on Peronism to the period of dictatorship and finally to redemocratization Colás's examination of this literary progression leads to the reconstruction of three significant moments in the history of Argentina His analysis provokes both a revised understanding of that history and the recognition that multiple meanings of postmodernity must be understood in ways that incorporate the complexity of regional differences Offering a new voice in the debate over postmodernity one that challenges that debate's leading thinkers *Postmodernity in Latin America* will be of particular interest to students of Latin American literature and to scholars in all disciplines concerned with theories of the postmodern

Latin American Postmodernisms Young, 2023-11-27 The first essays in this volume locate Latin America within the postmodernism debate by addressing both its position in the theory of the postmodern and the peripheral existence of the continent in light of the globalizing practices of the contemporary world The next essays focus on the Caribbean and elements of the formation of identity and culture in a group of societies belonging to the same geographic region but confronted with the idiosyncrasies of their colonial histories the problematics of race and language and their relation to the politics and cultures of metropolitan powers There are three essays concerned with re-readings of the first encounters between Europe and America and discussions of more recent fictional representations of the past which attempt to recover the lost Amerindian Other of the Conquest and Colonization and to reveal the constructedness of History Finally preceded by two texts on ways of reading and writing in Latin America the final four essays are concerned with challenges to the discourses of power by Latin American women who re-define the subject and counter the established hegemonies of religion culture and social structure both in their writing and political actions As a collection of essays this volume will appeal to readers who are interested in Post modernism as a global phenomenon and in understanding the different forms it takes and the issues it addresses in different cultural environments

Latin America Writes Back Emil Volek, 2002 Since the mid twentieth century Latin America has been swept by a wave of momentous changes that some have called the second modernization accelerated by an exploding population rampant urbanization and world wide trends in technology economy and culture These postmodern upheavals have transformed traditional landscapes and created striking new developments which despite their magnitude have yet to be properly understood in the United States and Europe Now after years of marginalization in the international debate on global change Latin American scholars present their own response to the theories and practices of postmodernity in this revelatory collection of essays Editor Emil Volek has assembled contributions across a range of interdisciplinary perspectives that illuminate contemporary Latin American culture by high lighting from within many changes scarcely noticed in Europe and the U.S. Issues discussed in light of these recent changes include the notorious Latin American conflicts with modernity the vexing problems of cultural identity strategies of resistance to global trends and the pervasive misconceptions about Latin American culture perpetuated within the United States and Europe Together the essays clarify that Latin America is neither what it used to be nor what it is expected to be but rather a new reality long overlooked by the world beyond Book jacket

The Postmodern Novel in Latin America Raymond L. Williams,1995-11-13 Recent Latin American cultural and political magazines have noted the trend of postmodernity in the literature of the region with a range of responses Some critics consider it a foreign importation and sign of cultural imperialism Others feel that postmodernism reflects a culture of mass media manipulated by the dominating classes But the debate has been particularly headed by a new group of young writers who consider themselves postmodern and politically progressive Severo Sarduy of Cuba Diamela Eltit of Chile and R H Moreno Duran of Colombia among others By examining a group of the most representative innovative writers active today Williams argues that the postmodern novel in Latin America is as political and valuable as its more traditional and modern predecessors

Postmodernism of Resistance in Roberto Bolaño's Fiction and Poetry J. Agustín Pastén B.,2020-12-01 Postmodernism of Resistance in Roberto Bola o s Fiction and Poetry examines the ways in which Bola o employs a type of literary aesthetics that subverts traits traditionally associated with postmodernism Past n B coins these aesthetics postmodernism of resistance and argues that this resistance stands in direct opposition to critical discourses that construe the presence of hopeless characters and marginal settings in Bola o s works as signs of the writer s disillusionment with the political as a consequence of the defeat of the Left in Latin America Rather he contends Bola o creates a fictional world comprised of characters and situations that paradoxically refuse to accept defeat even while displaying the scars of terrible historical events In this work Past n B challenges some critical assumptions about Bola o s fiction and poetry that led to decontextualized interpretations of his work and offers a singularly comprehensive investigation that synthesizes multiple perspectives of a complicated author into one text
