The Patient Will See You Now Eric Topol, 2016-10-25 The essential guide by one of America's leading doctors to how digital technology enables all of us to take charge of our health A trip to the doctor is almost a guarantee of misery You'll make an appointment months in advance You'll probably wait for several hours until you hear the doctor will see you now but only for fifteen minutes Then you'll wait even longer for lab tests the results of which you'll likely never see unless they indicate further and more invasive tests most of which will probably prove unnecessary much like physicals themselves And your bill will be astronomical In *The Patient Will See You Now* Eric Topol one of the nation's top physicians shows why medicine does not have to be that way Instead you could use your smartphone to get rapid test results from one drop of blood monitor your vital signs both day and night and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor all at a small fraction of the cost imposed by our modern healthcare system The change is powered by what Topol calls medicine's Gutenberg moment Much as the printing press took learning out of the hands of a priestly class the mobile internet is doing the same for medicine giving us unprecedented control over our healthcare With smartphones in hand we are no longer beholden to an impersonal and paternalistic system in which doctor knows best Medicine has been digitized Topol argues now it will be democratized Computers will replace physicians for many diagnostic tasks citizen science will give rise to citizen medicine and enormous data sets will give us new means to attack conditions that have long been incurable Massive open online medicine where diagnostics are done by Facebook like comparisons of medical profiles will enable real time real world research on massive populations There's no doubt the path forward will be complicated the medical establishment will resist these changes and digitized medicine inevitably raises serious issues surrounding privacy Nevertheless the result better cheaper and more human health care will be worth it Provocative and engrossing *The Patient Will See You Now* is essential reading for anyone who thinks they deserve better health care That is for all of us

Communities in Action National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on Community-Based Solutions to Promote Health Equity in the United States, 2017-04-27 In the United States some populations suffer from far greater disparities in health than others Those disparities are caused not only by fundamental differences in health status across segments of the population but also because of inequities in factors that impact health status so called determinants of health Only part of an individual's health status depends on his or her behavior and choice community wide problems like poverty unemployment poor education inadequate housing poor public transportation interpersonal violence and decaying neighborhoods also contribute to health inequities as well as the historic and ongoing interplay of structures policies and norms that shape lives When these factors are not optimal in a community it does not mean they are intractable such inequities can be mitigated by social policies that can shape health in powerful ways *Communities in Action* Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States This report focuses on what communities can do to promote health equity what actions are needed by the many and varied stakeholders that are part of communities or support them as well as the root causes and structural barriers that need to be overcome

On War Carl von Clausewitz, 1908

Relieving Pain in America Institute of Medicine, Board on Health Sciences Policy, Committee on Advancing Pain Research, Care, and Education, 2011-10-26 Chronic pain costs the nation up to 635 billion each year in medical treatment and lost productivity The 2010 Patient Protection and Affordable Care Act required the Department of Health and Human Services HHS to enlist the Institute of Medicine IOM in examining pain as a public health problem In this report the IOM offers a blueprint for action in transforming prevention care education and research with the goal of providing relief for people with pain in America To reach the vast multitude of people with various types of pain the nation must adopt a population level prevention and management strategy The IOM recommends that HHS develop a comprehensive plan with specific goals actions and timeframes Better data are needed to help shape efforts especially on the groups of people currently underdiagnosed and undertreated and the IOM encourages federal and state agencies and private organizations to accelerate the collection of data on pain incidence prevalence and treatments Because pain varies from patient to patient healthcare providers should increasingly aim at tailoring pain care to each person's experience and self management of pain should be promoted In addition because there are major gaps in knowledge about pain across health care and society alike the IOM recommends that federal agencies and other stakeholders redesign education programs to bridge these gaps Pain is a major driver for visits to physicians a major reason for taking medications a major cause of disability and a key factor in quality of life and productivity Given the burden of pain in human lives dollars and social consequences relieving pain should be a national priority

Happiness Through Hardship Caryn Sullivan, 2019-06-29 Does your diagnosis have you desperate as to what to do next Shocked scared and practically paralyzed with your next steps Help is here in this brilliant quick and simplified book backed with the best advice from a two time cancer survivor who walked in similar shoes Like a good friend holding your hand Caryn Sullivan's Happiness through Hardship is written in support of cancer patients their caregivers and or friends who need direction during the first few weeks after diagnosis This cancer surviving guide book empowers readers to take immediate steps for being prepared less stressed and able to find a little joy within the journey Happiness through Hardship directs those facing an initial cancer diagnosis with positivity and hope Structured with thoughtful tips and anecdotes this short book provides gentle guidance from the first few days to the thickness of treatments and includes a journal and note taking pages to be used as a reference during doctor appointments and meetings After her own cancer diagnosis Caryn understands the importance of a book that's easily digestible and not overwhelmingly long Her insight provides a little light during the darker days The first few weeks after diagnosis are often most challenging Caryn was blessed to have three angels Ellen Cavauiolo Mary Ann Wasil and Meghan Zucker guide her throughout the early days This book is dedicated to them and half the proceeds will be donated to metastatic breast cancer research through The Cancer Couch Foundation

Crossing the Quality Chasm Institute of Medicine, Committee on Quality of Health Care in America, 2001-07-19 Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before Yet recent reports have raised serious doubts about the quality of health care in America Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers health care leaders clinicians regulators purchasers and others In this comprehensive volume the committee offers A set of performance expectations for the 21st century health care system A set of 10 new rules to guide patient clinician relationships A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality Key steps to promote evidence based practice and strengthen clinical information systems Analyzing health care organizations as complex systems Crossing the Quality Chasm also documents the causes of the quality gap identifies current practices that impede quality care and explores how systems approaches can be used to implement change

On Their Own Terms Benjamin A. Elman, 2009-07-01 In On Their Own Terms Benjamin A Elman offers a much needed synthesis of early Chinese science during the Jesuit period 1600 1800 and the modern sciences as they evolved in China under Protestant influence 1840s 1900 By 1600 Europe was ahead of Asia in producing basic machines such as clocks levers and pulleys that would be necessary for the mechanization of agriculture and industry In the seventeenth and eighteenth centuries Elman shows Europeans still sought from the Chinese their secrets of producing silk fine textiles and porcelain as well as large scale tea cultivation Chinese literati borrowed in turn new algebraic notations of Hindu Arabic origin Tycho's cosmology Euclidian geometry and various computational advances Since the middle of the nineteenth century imperial reformers early Republicans Guomindang party cadres and Chinese Communists have all prioritized science and technology In this book Elman gives a nuanced account of the ways in which native Chinese science evolved over four centuries under the influence of both Jesuit and Protestant missionaries In the end he argues the Chinese produced modern science on their own terms

Dying in America Institute of Medicine, Committee on Approaching Death: Addressing Key End-of-Life Issues, 2015-03-19 For patients and their loved ones no care decisions are more profound than those made near the end of life Unfortunately the experience of dying in the United States is often characterized by fragmented care inadequate treatment of distressing symptoms frequent transitions among care settings and enormous care responsibilities for families According to this report the current health care system of rendering more intensive services than are necessary and desired by patients and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life Death is not a strictly medical event Ideally health care for those nearing the end of life harmonizes with social psychological and spiritual support All people with advanced illnesses who may be approaching the end of life are entitled to access to high quality compassionate evidence based care consistent with their wishes Dying in America evaluates strategies to integrate care into a person and family centered team based framework and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families The findings and recommendations of this report will address the needs of patients and their families and assist policy makers clinicians and their educational and credentialing bodies leaders of health care delivery and financing organizations researchers public and private funders religious and community leaders advocates of better care journalists and the public to provide the best care possible for people nearing the end of life
